To Whom It May Concern:

I am the President of MedVantage, a Veteran Owned Small Business selling labels and Labeling Systems to Healthcare. I am contracted with the Group Purchasing Organization **MY GPO** and I am writing to comment on my relationship with **MY GPO** and how this relationship has helped my company.

First and foremost, **MY GPO** made it easy for me to become a Supplier Diverse vendor. MedVantage is a small business and competes with much larger companies yet I was treated with the utmost of professionalism. It was if they were looking for ways to assist me so I could do business with them. Every step of the process I dealt with a staff that was helpful and informative and I truly feel they are totally committed to a Supplier Diversity Program.

Since I was awarded the contract there has been a constant flow of information, programs and two way dialog all designed to support my efforts and grow my business. Their commitment to our success is backed up with a strong dedicated staff from the President to my Portfolio Manager to the individual managing their Supplier Diversity Program.

In my estimation, they are the best GPO for a Supplier Diverse company like us.

Sincerely,

Jim Egarian
President
